Report to the Shareholders

Dear Shareholders,

On behalf of my colleagues on the Board of Directors of International Financial Advisors (IFA) and myself, it is with great pleasure that I present to you the annual report on the company's performance for year ended 31/12/2007.

IFA has achieved profits of KD 80.8 million (excluding Minority Interest of KD 14.5 million) with earnings per share of Fils 194 as of 31/12/2007. Moreover, the shareholders' equity grew to KD 248 million compared to KD 179 million in 2006 and total assets increased to KD 588 million in 2007 compared to KD 422 million in 2006. Therefore, the Board of Directors recommended the distribution of 60% bonus shares.

These profits were the result of the strategy adopted by the Board since the takeover of the company in May 2002 and is based on two pillars; the first pillar focuses on financial investment while the second focuses on real estate investment related to hotels and resorts which was successfully carried out by IFA's subsidiary, IFA Hotels & Resorts, and which is continuing to achieve exceptional results and to form further alliances in the Middle East, the Far East, Africa, Europe, the United States and in Latin America in the near future.

As for the first pillar which focuses on financial investments and asset management, IFA extended its operations in 2007 and increased its shareholding in its related companies, subsidiaries and associates such as International Finance Company, one of the main players in the field of consumer finance in Kuwait. Furthermore, IFA participated in the newly established Siraj Finance Company, which is based in the UAE and operates in the field of Islamic finance. In an effort to focus the group's operations, IFA has sold its brokerage business in the UAE, Egypt and Jordan to Kuwait Invest Holding Company, which already owns several major stakes in mature and start-up brokerage businesses, with the aim of making Kuwait Invest Holding the brokerage services arm of the group.

As for the investment funds, IFA's funds performed well during 2007. IFA Investment Fund achieved 70.75% returns, Al-Assjad Islamic Fund achieved 21.8% returns and IFA Khaleeji Fund achieved 15.8% returns for the same period. Furthermore, IFA ventured into the international markets in 2007 by launching IFA International Guaranteed Fund with a capital of up to US\$ 150 million. This new fund invests in financial instruments that are related to the US, European, Chinese and Indian indexes with the aim of achieving optimal risk-adjusted returns while guaranteeing the capital for the fund holders.

IFA's role as a Kuwaiti investment company was not limited to increasing its assets and improving its financial performance and results, but also to actively fulfill its responsibilities as part of the private sector through offering proposals that will improve the financial systems and the investment sector and enhance the sustainability of national economic growth. To that effect, the company submitted a proposal to the Minister of Commerce and Industry in July 2007 to establish a public shareholding company under the name of Kuwait Financial Market (KFM). The proposed company's main activity is to trade in securities and financial instruments under the management of the private sector and the effective supervision of the government.

Report to the Shareholders

We believe that the establishment of KFM will be one of the main elements in fulfilling the hopes and expectations of both the Government and the private sector in making Kuwait a significant regional financial center and an international financial center in the future. It will also resolve the dispute between “Group 70”, a group of 70 listed Kuwaiti companies that are lobbying to improve the efficiency of the Kuwaiti Stock Exchange (KSE), and its current management.

As for IFA’s future plans and following the achievements and successes of IFA’s related companies, subsidiaries and associates, we found it necessary as a group to prepare ourselves for the growing competition and the local, regional and international challenges. Therefore, extensive merger and restructuring studies have been carried out, aiming to enhance the specialization within the Group, eliminate duplications, create synergies and form integrated entities that aim to achieve higher profits and returns. As part of the execution of this strategy, International Investment Projects Company and Al-Deera Holding Company, both listed companies on KSE and members of the IFA group, have announced their intention to merge and are currently going through the necessary legal steps to complete the merger process. It is worth noting that this is the first merger between two listed companies from the private sector in Kuwait.

Finally, we would like to express our thanks and appreciation to all those who supported the implementation of our strategic objectives throughout the year. In particular we would like to thank our shareholders for their continued support, our strategic partners for their continued cooperation and our staff for their efforts in implementing the strategy of the company.

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of International Financial Advisors (A Kuwaiti Closed Shareholding Company) (“the parent company”) and its subsidiaries (the group), which comprise the consolidated balance sheet as at 31 December 2007, and the related consolidated statements of income, changes in equity and cash flows for the year then ended and a summary of significant accounting policies and the explanatory notes.

Management’s Responsibility for the Consolidated Financial Statements

The parent company’s management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors’ Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditors' Report

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the group as at 31 December 2007, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards applied in the State of Kuwait.

Report on Other Legal and Regulatory Requirements

In our opinion proper books of account have been kept by the group and the consolidated financial statements, together with the contents of the report of the parent company's board of directors relating to these consolidated financial statements, are in accordance therewith. we further report that we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the commercial companies law of 1960, and by the parent company's articles of association, as amended, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the law nor of the articles of association have occurred during the year ended that might have had a material effect on the business of the group or on its financial position.

We further report that, during the course of our audit we have not become aware of any material violations made during the year of the provisions of Law 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organisation of banking business, and its related regulations.

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

Notes to the consolidated financial statements

31 December 2007

1. Incorporation and activities

International Financial Advisors – KSC (Closed) (“the parent company”) is a Kuwaiti closed shareholding company incorporated on 31 January 1974 under the Commercial Companies Law No. 15 of 1960 and amendments thereto. The parent company is regulated by the Central Bank of Kuwait as an investment company. The address of the parent company’s registered office is PO Box 4694, Safat 13047, State of Kuwait. The parent company is principally engaged in providing financial advisory services, trading in local and international securities, borrowing, lending, issuing guarantees, managing investment funds and portfolio management and trading in future contracts.

The consolidated financial statements were authorised for issue by the board of directors on 1 April 2008 and they are subject to the approval of the general assembly of shareholders.

The group comprises the parent company and its subsidiaries.

1.1 Following is a list of subsidiary companies acquired and incorporated by the parent company.

IFA subsidiaries	Legal operating entity	Subsidiaries' ownership % in legal operating entity	Place of incorporation	Operations	Opening/ Acquisition date
Consolidated subsidiaries					
1) IFA Hotels & Resorts – KSC (Closed) (58.389%)	a) IFA Hotels & Resorts MZ – LLC	100%	UAE	Hotels & resorts	2003
	b) IFA Hotels & Resorts – Jabel Ali Free Zone and its subsidiaries (see below 1.2)	100%	UAE	Hotels & resorts	2005
	c) IFA Hotels & Resorts (SAL) Holdings	51%	Lebanon	Hotels & resorts	2003
	d) IFA Zimbali Hotels & Resorts (Pty) Ltd.	100%	South Africa	Hotels & resorts	2003
	e) IFA Hotels & Resorts Limited (see note below 1.3)	85%	South Africa	Hotels & resorts	2003

2. Adoption of new and revised International Financial Reporting Standards

Standards and Interpretations effective in the current period

In the current year, the Group has adopted IFRS 7 Financial Instruments: Disclosures which is effective for annual reporting periods beginning on or after 1 January 2007, and the consequential amendments to IAS 1 *Presentation of Financial Statements*.

The impact of the adoption of IFRS 7 and the changes to IAS 1 has been to expand the disclosures provided in these financial statements regarding the Group's financial instruments and management of capital (see note 40). Four Interpretations issued by the International Financial Reporting Interpretations Committee are effective for the current period. These are: IFRIC 7 Applying the Restatement Approach under IAS 29, Financial Reporting in Hyperinflationary Economies; IFRIC 8 Scope of IFRS 2; IFRIC 9 Reassessment of Embedded Derivatives; and IFRIC 10 Interim Financial Reporting and Impairment. The adoption of these Interpretations has not led to any changes in the Group's accounting policies.

Standards and Interpretations in issue not yet adopted

The following new Standards and Interpretations which are yet to become effective have not been adopted:

- IAS 1: (Revised) Presentation of Financial Statements (effective 1 January 2009) ;
- IFRS 8: Operating Segments (effective 1 January 2009) ;
- IAS 23 : (Revised) Borrowing costs (effective 1 January 2009) :
- IFRIC 11 IFRS 2: Group and Treasury Share Transactions (effective 1 March 2007) :
- IFRIC 12 : Service Concession Arrangements (effective 1 January 2008) :
- IFRIC 13 : Customer Loyalty Programmes (effective 1 July 2008) : and
- IFRIC 14 IAS 19 : The limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction (effective 1 January 2008)

The directors anticipate that all of the above Interpretations will be adopted in the Group's financial statements for the period commencing 1 January 2008 and that the adoption of those Interpretations will have no material impact on the financial statements of the Group in the period of initial application.

IFRS 8 Operating Segments is a disclosure standard which may result in a redesignation of the group's reportable segments but is not expected to have any impact on the results of financial position of the group.

IAS 1 Presentation of Financial Statements has been revised to require that an entity must present all non-owner changes in equity either in one statement of comprehensive income or in two separate statements (i.e. a statement of income and a statement of comprehensive income). Components of comprehensive income such as changes in revaluation surplus, gains and losses on remeasuring available for sale investments and gains and losses arising from translating the financial statements of foreign operation may not be presented in the statement of changes in equity. The application of the revised standard is not expected to result in any prior period adjustments of cash flow, net income or balance sheet line items in the initial period of application.

IAS 23 Borrowing Costs has been amended resulting into elimination of the previously available option to expense all borrowing costs when incurred. Under the revised standard, all borrowing costs that are directly attributable to qualifying assets are to be capitalised. The application of the revised standard is not expected to have a material impact on the financial statements in the period of initial application because it has always been group's accounting policy to capitalise borrowing costs incurred on qualifying assets.

The group does not intend to apply any of the above pronouncements early.

The following standards, amendments and interpretations are mandatory for reporting periods beginning on or after 1 January 2007 but they are not relevant to the group's operations:

- IFRIC 7 Applying the Restatement Approach under IAS 29 Financial Reporting in Hyper-Inflationary Economies; and
- IFRIC 9 Reassessment of Embedded Derivatives

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

3. Significant accounting policies

The accounting policies used in the preparation of the consolidated financial statements are consistent with those used in the preparation of the consolidated financial statements for the year ended 31 December 2006. The principal accounting policies are set out below.

Statement of compliances

The consolidated financial statements of the group have been prepared in accordance with International Financial Reporting Standards and with the regulations of the Government of Kuwait for financial services institutions regulated by the Central Bank of Kuwait. These regulations require adoption of all International Financial Reporting Standards (IFRS) except for the IAS 39 requirements for a collective provision, which has been replaced by the Central Bank of Kuwait's requirement for a minimum general provision as described under the accounting policy for impairment of financial assets.

Basis of preparation

The consolidated financial statements are prepared under the historical cost basis except for the revaluation of investments.

The consolidated financial statements have been presented in Kuwaiti Dinars which is the functional currency of the parent company.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the parent company and its subsidiaries as of 31 December each year.

Subsidiaries are those enterprises controlled by the parent company. Control exists when the group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries, other than those that are acquired with a view to disposal within twelve months from the date of acquisition, are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases.

The financial statements of the subsidiaries are consolidated on a line-by-line basis by adding together like items of assets, liabilities, income and expenses.

All intra-group balances, transactions, income and expenses are eliminated in full on consolidation.

The financial statements of subsidiaries are prepared for the same reporting year as the parent company, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

Minority interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the consolidated income statement and within equity in the consolidated balance sheet, separately from parent shareholders' equity. Acquisitions of minority interests are accounted for using the parent entity extension method, whereby, the difference between the consideration and the book value of the share of the net assets acquired is recognised as goodwill.

Business combinations

Acquisition of subsidiaries and businesses are accounted for using the purchase method. The cost of the business combination is measured as the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, plus any costs directly attributable to the business combination. The acquirer's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 Business Combination are recognised at their fair values at the acquisition date. Goodwill represents the excess of acquisition cost over the fair value of the group's share of the identifiable net assets of the acquirer at the date of the acquisition. Any excess, at the date of acquisition, of the group's share in the fair value of the identifiable net assets acquired over the acquisition cost is recognised as negative goodwill in the consolidated statement of income.

Investment in associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations. Under the equity method, investments in associates are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associate, less any impairment in the value of individual investments. Losses of an associate in excess of the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate) are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

3. Significant accounting policies (continued)

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognised at the date of acquisition is recognised as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of that investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

Where a group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

Interest in Joint Ventures

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity that is subject to joint control that is when the strategic financial and operating policy decisions relating to the activities of the joint venture require the unanimous consent of the parties sharing control. Where a group entity undertakes its activities under joint venture arrangements directly, the Group's share of jointly controlled assets and any liabilities incurred jointly with other ventures are recognised in the financial statements of the relevant entity and classified according to their nature. Liabilities and expenses incurred directly in respect of interests in jointly controlled assets are accounted for on an accrual basis. Income from the sale or use of the Group's share of the output of jointly controlled assets, and its share of joint venture expenses, are recognised when it is probable that the economic benefits associated with the transactions will flow to/from the Group and their amount can be measured reliably.

Goodwill

Goodwill arising on the acquisition of a subsidiary or a jointly controlled entity represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary or jointly controlled entity recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary or a jointly controlled entity, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate is described in investment in associate policy.

Revenue recognition

Sales of property developments

Revenue from the sale of property is recognized when legal title passes or when the equitable interest in the property vests in the buyer. Where there are further substantial acts to complete in the development of the property, revenue is deferred and recognized as the act performed. Revenue is recognized by reference to the stage of completion of the development of the property, at the balance sheet date, as measured by the proportion that land and development costs incurred to date bear to the estimated total land and development cost.

In assessing whether equitable interests vests in the buyer prior to legal title passing, management judgment is based on whether the following conditions have been met:

- 1) The relevant agreements are unconditional and binding on the purchaser;
- 2) The purchaser has paid meaningful deposit or has made arrangements to secure payment of the purchase price;
- 3) Zoning and final conditions of the establishment have been obtained; and
- 4) Servicing arrangements and costs are substantially finalized.

Sale of residential units

Revenue on sale of condominiums is recognised on the basis of percentage completion using the cost-to-cost method as and when all of the following conditions are met:

- The buyer's investment, to the date of the financial statements, is adequate (20% and above) to demonstrate a commitment to pay for the property;
- Construction is beyond a preliminary stage. The engineering, design work, signing of construction contract, site clearance and building foundation are finished;
- The buyer is committed; and
- The aggregate sales proceeds and costs can be reliably estimated.

3. Significant accounting policies (continued)

Cost of revenues

Cost of revenues includes the cost of land and development costs. Development costs include the cost of infrastructure and construction. The cost of revenues in respect of sale of condominiums is recognised on the basis of percentage of completion.

Rental and hoteliers income

Rental income of units in office buildings and residential buildings are recognised on an accrual basis. Revenue from hoteliers and related services is recognised when the services are rendered.

Interest income

Interest income is recognised in the income statement as it accrues, taking into account the effective yield of the asset or an applicable floating rate.

Dividends

Dividends are recognised when the right to receive the dividends is established.

Fees and Commission

and commission income are recognised when earned

Foreign currencies

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each group entity are expressed in Kuwaiti Dinar ('KD'), which is the functional currency of the parent Company and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in consolidated statement of income in the period in which they arise except for:

- exchange differences which relate to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks ; and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which form part of the net investment in a foreign operation, and which are recognised in the foreign currency translation reserve and recognised in profit or loss on disposal of the net investment.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are expressed in KD using exchange rates prevailing at the balance sheet date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are classified as equity and recognised in the Group's foreign currency translation reserve in equity.

Such exchange differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

3. Significant accounting policies (continued)

Taxation

Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that its probable that taxable profits will be available against which deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary differences arise from goodwill or initial recognition (other than in business combination) of other assets and liabilities in the transactions that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that its no longer probable that sufficient taxable profits will be available for the assets to be recovered.

Income tax expenses represent the sum of the tax currently payable and deferred tax.

The tax currently payable is based on the taxable profit for the year plus secondary tax on companies. Taxable profit defers from profit as reported in the income statement because its excludes items of income and expenses that are taxable or deductible in other years and its further excludes items that are never taxable or deductible. The group's liabilities for current and deferred tax is calculated using tax rates that have been enacted or substantially enacted by the balance sheet date.

Cash and cash equivalent

Cash and cash equivalent as stated in the statement of cash flows comprise bank balance and cash, short term deposits maturing within three months and due to bank balances.

Financial assets

Investments are recognised and derecognised on trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

Financial assets are classified into the following specified categories: financial assets 'at fair value through Profit and Loss (FVTPL)', 'available-for-sale' (AFS) financial assets and 'loans and receivables'.

Financial assets at FVTPL

Financial assets are classified as at FVTPL where the financial asset is either held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and IAS 39 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets at FVTPL are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset. Fair value is determined in the manner described in note 43.

AFS financial assets

Unlisted shares held by the Group that are traded in an active market are classified as being AFS and are stated at fair value. Fair value is determined in the manner described in note 43.

3. Significant accounting policies (continued)

Gains and losses arising from changes in fair value are recognised directly in equity in the cumulative changes in fair value reserve with the exception of impairment losses, interest calculated using the effective interest method and foreign exchange gains and losses on monetary assets, which are recognised directly in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognised is included in profit or loss for the period.

Dividends on AFS equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established.

The fair value of AFS monetary assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the balance sheet date. The change in fair value attributable to translation differences that result from a change in amortised cost of the asset is recognised in profit or loss, and other changes are recognised in equity.

Loans and receivables

Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at each balance sheet date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

For unlisted shares classified as AFS, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

For all other financial assets, including redeemable notes classified as AFS and finance lease receivables, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

In respect of AFS equity securities, impairment losses previously recognised through profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised directly in equity.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Impairment and uncollectability of financial assets

An assessment is made at each balance sheet date to determine whether there is objective evidence that a specific financial asset, or group of similar assets, may be impaired. If such evidence exists, the estimated recoverable amount of that asset is determined and any impairment loss, based on the net present value of future anticipated cash flows, is recognised in the consolidated statement of income. For assets carried at amortised cost, future anticipated cash flows are discounted at the financial instrument's original effective interest rate. For assets carried at fair value, impairment is the difference between cost and fair value.

In addition, in accordance with the Central Bank of Kuwait instructions, a minimum general provision of 1% on all credit facilities and loans net of certain restricted categories of collateral, and not subject to specific provision, is provided.

The provision for impairment of loans and advances also covers losses where there is objective evidence that probable losses are present in components of the loans and advances portfolio at the balance sheet date. These have been estimated based on historical patterns of losses in each component, the credit ratings allocated to the borrowers and reflecting the current economic climate in which the borrowers operate.

3. Significant accounting policies (continued)

Fair values

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable, willing parties in an arm's length transactions.

For securities traded in organised financial markets, fair value is determined by reference to Stock Exchange quoted market bid prices at the close of business on the balance sheet date.

For securities where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument which is substantially the same, or is based on the expected discounted cash flows, or determined by using valuations implied by significant financial events e.g. indicative bids, partial exits, or additional investments, or determined by using valuations implied by third party issuers having substantially the same line of business as the investee or other appropriate valuation techniques.

The determination of fair value is done for each investment individually

Trading properties

Trading properties include purchase and development costs of unsold real estate (land). Development costs include planning, maintenance and service cost. Trading properties are stated at the lower of cost and net realisable value. Costs are those expenses incurred in bringing each property to its present condition including identifiable finance cost. Net realisable value is based on estimated selling price less any further costs expected to be incurred on completion and disposal.

Investment properties

Investment properties, which is property held to earn rentals or for capital appreciation are initially measured at its cost, including transaction cost.. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in fair values are taken to the consolidated statement of income.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of income in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the end of owner occupation, commencement of an operating lease to another party or completion of construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with a view to sale.

Properties under development

Property under development represents properties under development/construction for trade, which are stated at cost or net realisable values whichever is lower. Cost includes the cost of land, construction, design and architecture, advances paid for purchase of properties and other related expenditures such as professional fees, project management fees and engineering costs attributable to the project, which are accrued as and when activities that are necessary to get the assets ready for the intended use are in progress. Direct costs from the start of the project up to completion of the project are accrued to properties under development. Completion is defined as the earlier of the issuance of the certificate for completion, or when management considers the project to be completed. Upon completion, unsold properties, if any are transferred to trading properties.

Capital work-in-progress

Capital work-in-progress includes land which is stated at cost less impairment in value, if any. The carrying value of land is reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying value exceeds the estimated recoverable amount, the value of land is written down to its recoverable amount.

Capital work-in-progress also includes the cost of construction, design and architecture, advances paid for purchase of properties and other related expenditures such as professional fees, project management fees and engineering costs attributable to the project, which are capitalized as and when activities that are necessary to get the assets ready for the intended use are in progress. Direct costs from the start of the project up to completion of the project are capitalized.

Property, plant and equipment

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

3. Significant accounting policies (continued)

Depreciation is charged so as to write off the cost of assets, other than freehold land, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

Freehold land is not depreciated.

Building on leasehold land is depreciated over the term of lease.

Plant and Equipments, Furniture and Fixtures, Motor Vehicles and Yachts are stated at cost less accumulated depreciation and accumulated impairment losses.

The Aircraft is depreciated over a 15 years period after deducting the residual value estimated by professional aircraft valuers to be 85% of original value after that period.

Depreciation is calculated on a straight-line basis over the estimated useful lives as follows:

Freehold buildings	50 years
Building on leasehold land	over the term of lease
Plant and equipment	5 – 7 years
Furniture and fixtures	5 – 10 years
Motor vehicles	4 -5 years
Yacht	10 years
Aircraft	15 years

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Provisions

A provision (other than the provision for investments and loans receivables) is recognised in the balance sheet when the group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows that reflects current market assessments for such liabilities.

Deposits received from customers

Deposits received from customers represent money received from customers towards instalments for properties in accordance with the terms of the sale agreements.

Employees' end of service benefits

Provision is made for employees' end of service indemnity in accordance with the applicable Labour Laws based on employees' salaries and accumulated periods of service or on the basis of employment contracts, where such contracts provide extra benefits. The provision which is unfunded is determined as the amount payable to employees as a result of involuntary termination of employment as of the balance sheet date.

Treasury shares

The parent company's own shares are accounted for as treasury shares and are stated at cost. When the treasury shares are sold, gains are credited to a separate account in equity under "treasury shares profit reserve" which is non distributable. Any realised losses are charged to the same account to the extent of the credit balance on that account. Any excess losses are charged to retained earnings then reserves. Gains realised subsequently on the sale of treasury shares are first used to offset any previously recorded losses in the order of reserves, retained earnings and the treasury shares reserve account. No cash dividends are distributed on these shares. The issue of bonus shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

Fiduciary assets

Assets held in trust or in a fiduciary capacity are not treated as assets of the group and accordingly are not included in these consolidated financial statements.

4. Critical accounting judgements and key sources of estimation uncertainty

In the application of the group's accounting policies, which are described in note 3, management is required to make judgements, estimates and assumption about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Valuation of unquoted equity investments

Valuation of unquoted equity investments is normally based on one of the following:

- recent arm's length market transactions;
- current fair value of another instrument that is substantially the same;
- the expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics; or
- other valuation models.

The determination of the cash flows and discount factors for unquoted equity investments requires significant estimation.

Critical judgements in applying accounting policies

In the process of applying the group's accounting policies, management has made the following significant judgements, apart from those involving estimations, which have the most significant effect in the amounts recognised in the consolidated financial statements:

Classification of real estate property

Management decides on acquisition of a real estate property whether it should be classified as trading, property held for development or investment property.

The group classifies property as trading property if it is acquired principally for sale in the ordinary course of business.

The group classifies property as property under development if it is acquired with the intention of development.

The group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

Classification of investments

Management decides on acquisition of an investment whether it should be classified as held for trading, at fair value through statement of income, or available for sale.

The group classifies investments as trading if they are acquired primarily for the purpose of making a short term profit by the dealers.

Classification of investments as investment at fair value through statement of income depends on how management monitor the performance of these investments. When they are not classified as held for trading but have readily available reliable fair values and the changes in fair values are reported as part of income statement in the management accounts, they are classified as at fair value through statement of income.

All other investments are classified as available for sale.

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

5. Interest and similar income

Interest and similar income resulted from financial assets as follows:

	2007 KD	2006 KD
Investments at fair value through statement of income	61,309	70,464
Financing of future trades	630,435	376,876
Loans receivable	1,048,141	1,964,195
Cash and cash equivalents	2,407,138	2,465,854
Late payment by customers	901,129	165,106
Loans to related parties	447,946	-
	5,496,098	5,042,495
Interest and similar income on financial assets at fair value	61,309	70,464
Interest and similar income on financial assets at book value	5,434,789	4,972,031
	5,496,098	5,042,495

6. Management fees and commission income

	2007 KD	2006 KD
Management fees on assets under management	604,310	820,769
Incentive fees on assets under management	391,356	40,138
Placement fees –managed fund	105,202	253,967
Consulting and advisory fees on assets management	2,098,587	787,050
	3,199,455	1,901,924

7. Dividend Income

Dividend income resulted from financial assets as follows:

	2007 KD	2006 KD
Investments at fair value through statement of income	2,441,205	3,092,135
Investments available for sale	1,099,823	922,396
	3,541,028	4,014,531

8. Net income from hoteliers and related services

	2007 KD	2006 KD
Revenue	1,756,172	1,540,856
Costs	(745,091)	(644,539)
Net income from hoteliers and related services	1,011,081	896,317

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

9. Net gain/(loss) on investments

Net gain/(loss) on investments, analyzed by category for the year ended 31 December 2007 and 2006 are as follows:

	2007			2006		
	Investments held for trading KD	Investments available for sale KD	Total KD	Investments held for trading KD	Investments available for sale KD	Total KD
Realized gain/(loss)	6,936,377	310,194	7,246,571	(8,392,801)	5,378,185	(3,014,616)
Unrealized gain/(loss)	28,531,032	-	28,531,032	(41,688,920)	-	(41,688,920)
	35,467,409	310,194	35,777,603	(50,081,721)	5,378,185	(44,703,536)

10. Net gain on investment properties

	2007 KD	2006 KD
Realized gain arising from disposals	3,970,300	-
Unrealized gain arising from revaluations (Note 23.3)	2,683,512	623,877
Net gain on investment properties	6,653,812	623,877

During the year, the group sold a property for which an advance payment of KD14,577,968 was made in the year 2006. The net profit generated from the sale of the said property is KD3,970,300.

11. Gain on sale of properties under development

Gain on sale of properties under development represents the difference between the sales value and cost of properties originally carried by the group, to acquire, redevelop and sell to the clients. The realised income on sale of these properties is determined based on the percentage of completion method.

	2007 KD	2006 KD
Sales revenue	78,948,537	27,358,295
Cost of sales	(47,984,597)	(18,547,209)
	30,963,940	8,811,086

12. Gain on sale of shares in unconsolidated subsidiaries

During the year, the group sold its stake in two unconsolidated subsidiaries (49% and 50% respectively) for a total amount equivalent to KD1,535,851. The group recognised a profit on this sale amounting to KD200,328 (2006: KD Nil).

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

13. Other Income

The other income consists of the following:

	2007 KD	2006 KD
Net Income from aviation services	1,126,811	81,702
Properties rental Income	237,651	272,447
Gain/(loss) from foreign currency revaluation	2,749,992	(71,625)
Other income	272,153	201,379
	4,386,607	483,903

14. Interest and similar expenses

Interest and similar expense relates to the group's borrowing activities: short, medium and long. All these financial liabilities of the group are stated at amortised cost.

15. Basic and diluted earnings/(loss) per share

Earnings/(loss) per share is calculated by dividing the profit/(loss) for the year attributable to the shareholders of the parent company, by the weighted average number of shares outstanding of the parent company during the year after deducting treasury shares as follows:

	2007	2006
Profit/(loss) for the year attributable to the shareholders of the parent company (KD)	80,803,330	(24,225,427)
Weighted average number of shares outstanding (excluding treasury share) (shares)	416,811,642	423,479,022
Basic and diluted earnings/(loss) per share (Fils)	193.86	(57.21)

16. Cash and cash equivalents

	2007 KD	2006 KD
Bank balances and cash	26,944,721	19,251,323
Fixed deposit	47,841,678	12,063,721
Due to bank	(1,069,793)	(837,031)
Cash and cash equivalents in the consolidated statement of cash flows	73,716,606	30,478,013

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

17. Investments at fair value through statement of income

	2007 KD	2006 KD
Held for trading:		
Local		
Quoted shares	138,144,801	113,682,652
Unquoted shares	3,504,566	1,830,029
	141,649,367	115,512,681
Foreign		
Quoted shares	2,275,348	678,420
Unquoted shares	38,897	-
	2,314,245	678,420
Total	143,963,612	116,191,101

18. Other assets

	2007 KD	2006 KD
Receivables on forward contacts	3,062,000	2,518,715
Trade receivables	10,901,635	6,332,761
Advances and prepayments	1,958,161	933,327
Kuwait Clearing Company receivables	275,474	4,842,092
Staff receivables	434,443	1,438,513
Prepaid expenses	1,268,800	48,164
Advance to contractors	13,313,593	7,415,898
Other receivables	8,919,542	6,120,033
	40,133,648	29,649,503

19. Loans receivable

19.1 Loans balances and effective interest rates are as follows:

	2007 KD	Effective interest rate	2006 KD	Effective Interest Rate
Consumer	55,647	6%	55,647	6%
Real estate	1,032,606	6% - 10%	1,154,091	6% - 10%
Margin loans	12,289,016	6% - 10%	26,771,877	6% - 10%
Rescheduled	1,111	7% - 11%	1,111	7% - 11%
	13,378,380		27,982,726	
Provisions	(2,676,296)		(3,217,428)	
	10,702,084		24,765,298	

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

19. Loans receivable (continued)

19.2 The movement in provisions is as follows:

	2007 KD	2006 KD
Balance at 1 January	3,217,428	2,495,797
Provision charge for the year (included in other operating expenses)	-	865,964
Transferred to surplus provision as per CBK instructions	(329,983)	-
Reversal of excess provision (no longer needed)	(231,076)	(141,421)
Foreign currency exchange movement	19,927	(2,912)
Balance at 31 December	<u>2,676,296</u>	<u>3,217,428</u>

The policy of the parent company for the calculation of the provisions for loans receivable complies in all material respect with the provision requirements of the Central Bank of Kuwait.

21. Investments available for sale

21.1 The investments available for sale comprise of:

	2007 KD	2006 KD
Quoted shares	44,939,302	18,544,186
Unquoted shares	55,351,506	42,563,080
	100,290,808	61,107,266

Unquoted shares include KD 36,900,176 (2006: KD30,571,193) that are carried at cost as at the balance sheet date due to unavailability of reliable sources to determine their fair value, out of which KD11,212,042 (2006: KD5,640,996) has been purchased during the year. Management is not aware of any circumstances that would indicate any impairment in the value of these investments on the balance sheet date.

21.2 The movement in investment available for sale is as follows:

	2007 KD	2006 KD
Balance at beginning of the year	61,107,266	42,811,695
Acquisitions during the year	51,537,271	16,038,994
Disposals during the year	(4,684,543)	(3,384,576)
Net movement in fair value	(7,619,186)	5,641,153
Reclassification to associate companies (Note 24.1)	(50,000)	-
	100,290,808	61,107,266

21.3 The movement on cumulative change in fair value is as follows:

	2007 KD	2006 KD
Balance at beginning of the year	11,295,454	5,654,301
Cumulative change in fair value during the year	(7,077,890)	8,097,694
Transferred to profit and losses on disposal	(541,296)	(2,456,541)
	3,676,268	11,295,454

22. Trading properties

22.1 Trading properties consists of:

	2007 KD	2006 KD
Properties in Dubai – UAE	900,756	4,349,501
	900,756	4,349,501

22.2 The movement in trading properties is as follows:

	2007 KD	2006 KD
Balance at the beginning of the year	4,349,501	418,703
Additions during the year	-	9,894,317
Absorbed to cost of sales	(2,101,634)	(5,958,111)
Discount received on Land	(1,118,790)	-
Foreign currency exchange difference	(228,321)	(5,408)
	900,756	4,349,501

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

23. Investment properties

23.1 Investment properties are located in the following regions:

	2007 KD	2006 KD
Kuwait	13,450,000	10,748,475
Lebanon	2,705,806	-
Jordan	351,050	351,050
UAE	1,465,665	30,624,115
Egypt	212,983	182,548
South Africa	215,620	210,896
	18,401,124	42,117,084

23.2 Investment properties represent the following:

	2007 KD	2006 KD
Private freehold land in IFA Zimbali – South Africa	215,620	210,896
Land in Jordan	351,050	351,050
Land in UAE	572,387	590,400
Land in Egypt	212,983	182,548
Properties in Kuwait	13,450,000	10,748,475
Apartments in Dubai – UAE (advances)	893,278	893,277
Building in Lebanon	2,705,806	-
Crescent, palm Jumeirah (transferred to properties under development)	-	29,140,438
	18,401,124	42,117,084

23.3 The movement in investment properties is as follows:

	2007 KD	2006 KD
At Fair value		
Balance at beginning of the year	42,117,084	29,747,641
Additions during the year	5,187,974	11,745,566
Transfer from advance for purchase properties (Note 10)	14,577,968	-
Transfer to properties under development (Note 26.2)	(27,057,011)	-
Disposals during the year	(17,029,700)	-
Unrealized gain from fair value adjustment (Note 10)	2,683,512	623,877
Net foreign currency exchange differences	(2,078,703)	-
Balance at the end of the year	18,401,124	42,117,084

At the end of the year, two properties in Kuwait were revalued by professional qualified external valuer with an amount of KD13,450,000 which resulted in unrealised gain amounting to KD2,701,525.

During the year properties in the United Arab Emirates with a value of KD27,057,011 (AED362,791,786) were transferred to properties under development as the management is planning to construct and sell freehold apartment, villas, townhouses, penthouses, vacation club and heritage place on this plot of land.

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

24. Investment in associated companies

24.1 Details of associates are as follows:

Name of the associate	Principle activities	Date of acquisition	Place of incorporation	2007		2006	
				%	KD	%	KD
Addax Bank (BSC)	Providing banking services	Jul-03	Bahrain	20	5,918,142	40	2,575,999
Boschendal (Pty) Ltd	Real estate	Apr-06	South Africa	26.57	720,506	19.25	465,832
Raimon Land Public Company Limited	Property construction and development		Thailand	26.57	8,091,863	24.99	7,478,262
PurplePlum Properties Limited	Property development	Dec-06	South Africa	26.57	1	-	-
Zamzam Religious Tour Company	Hajj & Umrah	Sep-07	Kuwait	20	50,000	-	-
Legend & IFA Developments (Pty) Ltd	Property development	Jun-07	South Africa	20	794,782	-	-
				15,575,294		10,520,093	

- (i) On June 2007, Addax Bank (BSC) called for share capital increase. The group didn't participate in the share capital increase, so the ownership decreased from 40% to 20%. On the other hand, total value of the group investment increased in the said bank due to its shares in share premium which resulted from the increase in the bank's share capital.
- (ii) During the year, the group reclassified its participation in Zamzam Religious Tour Company from AFS investment to investment in associates. Zamzam has not yet started operation (Note 21.2).
- (iii) Among the group's associates, only Raimon Land Public Company Limited is quoted and the fair market value of its shares as on the balance sheet date was KD 5,561,778 (KD5,497,780 in 2006). Management is not aware of any circumstances that may lead to impairment in the carrying amount of this investment.

24.2 Summarized financial information in respect of group's associates is set out below:

	2007 KD	2006 KD
Total Assets	121,356,914	54,954,204
Total Liabilities	(70,042,957)	(29,782,710)
Total equity	51,313,957	25,171,494
Group's share of net assets of associates at carrying value	11,669,313	7,459,120
Goodwill on acquisition (see below 24.3)	3,905,981	3,060,973
Investment in associates as on 31st December	15,575,294	10,520,093
Total revenue	14,013,195	13,257,577
Groups' share of profit from associates	3,234,000	909,275

24.3 Goodwill in associates which included in the value of investment

	2007 KD	2006 KD
At 1 January	3,060,973	3,511,863
Additions during the year	539,997	-
Foreign currency exchange difference	305,011	(450,890)
At 31 December	3,905,981	3,060,973

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

25. Goodwill

	2007 KD	2006 KD
At 1 January	3,794,870	106,593
Increase arising on purchase of additional shares in IFA Hotels and Resorts –KSCC	34,957,649	1,885,998
Arising on acquisition of Fastnet Capital Limited	332,982	-
Arising on acquisition of subsidiaries in Lebanon	-	1,684,146
Arising on acquisition of subsidiaries in South Africa	-	131,414
Impairment loss	(131,414)	-
Foreign currency exchange differences	(37,358)	(13,281)
At 31 December	38,916,729	3,794,870

During the year, the parent company executed buying and selling transactions of the shares in one of its subsidiaries. Such transactions resulted in goodwill amounting to KD34,957,649 which was recorded in the consolidated balance sheet. Total profit recognised from these transactions amounted to KD27,500,013.

During the year, the group also acquired Fastnet Capital Limited, UK as a fully owned subsidiary with a total consideration of USD1,250,000 equivalent to KD360,181 which resulted in a goodwill amounting to KD332,982.

25.1 Annual test for impairment

During the financial year, the group assessed the recoverable amount of goodwill in subsidiary companies, and determined that there is no indication of impairment as of the balance sheet date other than the amounts listed above.

A discount rate of 15% per annum was applied in the value in use model.

26. Properties under development

26.1 The Properties under development consists of the following:

	2007 KD	2006 KD
a) Dubai – UAE (Note 26.2)		
- Crescent Palm, Jumeirah	26,589,177	-
- The Trunk, Palm Jumeirah	6,149,779	9,969,770
- Golden Mile, Palm Jumeirah	4,125,789	416,962
- Jumeirah Lake, Dubai	2,792,355	2,324,940
- Construction, piling and enabling works	5,693,494	2,108,238
- Other construction related costs	3,840,502	3,678,473
- Deferred expenses	5,928,547	2,663,682
	55,119,643	21,162,065
b) S.A –Africa (Note 26.3)	13,712,118	8,544,781
c) Lebanon	5,729,430	7,736,414
Total	74,561,191	37,443,260

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

26. Properties under development (continued)

26.2 The movement in properties under development in UAE are as follows:

	2007 KD	2006 KD
Land:		
Balance at beginning of the year	12,869,773	12,241,263

32. Advances received from customers

These balances represent amounts collected from customers in advance on the sale of residential flats currently under construction by the group.

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

33. Share capital

Share capital

The authorised share capital as at 31 December 2007 comprised of 450,000,000 shares of KD 0.100 each, all issued and fully paid (2006: 450,000,000 shares of KD 0.100 each).

Share premium

Additional share capital of KD 3,000,000 at premium of 400 fils per share equivalent to KD 12,000,000 was issued during the year 2004 by issue of 20% stock rights to existing shareholders after approval in the Annual General Meeting held on 14 June 2004. Only 29,932,650 shares were subscribed for in this new issue, recognising share premium of KD11,973,061.

Treasury shares

	2007			2006		
	Number of shares	%	Market Value KD	Number shares	%	Market Value KD
Balance at beginning of the year	32,257,275	7.17	23,870,384	19,184,306	4.26	52,564,998
Net Movement	2,130,693			13,072,969		
Balance at end of the year	34,387,968	7.64	30,605,292	32,257,275	7.17	23,870,384

Reserves of the parent company equivalent to the cost of treasury shares have been earmarked as non-distributable.

34. Statutory and Voluntary reserves

In accordance with the Commercial Companies Law and the parent company's Articles of Association, 10% of the profit for the year before contribution to KFAS, National Labour Support tax, Zakat and directors fees is transferred to statutory reserve. The parent company may resolve to discontinue such annual transfers when the reserve totals 50% of the paid up share capital.

Distribution of the reserve is limited to the amount required to enable the payment of a dividend of 5% of paid up share capital to be made in years when accumulated profits are not sufficient for the payment of a dividend of that amount.

The parent company's articles of association requires that 10% of the profit for the year before contribution to KFAS, National Labour Support tax, Zakat and directors fees should be transferred to a voluntary reserve, and no transfer is required in a year when losses are made.

35. Fiduciary accounts

These accounts include term deposit and investment portfolios with the total amount of KD103,043,536 (2006: KD160,135,029) which are held by the group on behalf of its customers as margin guarantees against customer liabilities for trading related activities.

36. Proposed dividends

Subsequent to the balance sheet date, the directors have proposed to distribute bonus shares of 60% of paid up share capital or 60 shares for each 100 shares to the shareholders of the parent company at the date of the general assembly. This proposal is subject to the approval of the parent company's shareholders at the annual general meeting.

During 2007, no dividends for the year ended 31 December 2006 were approved at the annual general meeting held on 26 May 2007.

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

37. Contingent liabilities

In 1993, the liquidator of a bank in Bahrain filed a legal case in Ajman (United Arab Emirates) against the parent company and Gulf Group for Industrial Projects, claiming an amount of US\$ 27,714,944 representing the balance of debt due from a third party. Two court decisions were issued by the Court of First Instance in favour of the parent company during 1995 and 1996, in addition to an appeal court decision issued in 1998 in favour of the parent company by that court, rejecting the aforementioned appeal, and supporting the decision issued by the Court of First Instance in favour of the company.

On 25 January 2006 a court order was issued requesting the payment of KD1,788,944 (AED22,431,145) from Gulf Group for Industrial Projects (the other party) and International Financial Advisors (parent company), jointly, being the principal amount of the debt to 29 April 1985 plus an amount of KD3,272,312 (AED41,032,903) interest on that amount from 29 April 1985 to the date of the court case on 12 August 1993. The parent company has provided for its share of principal and interest as ruled by the court for a total amount of KD5,061,256 during the year 2005.

During the year, the group also provided an amount of KD 1,815,219 (AED 29,041,265) as interest for the period from 13 August 1993 to 31 December 2007 (Note 29).

38. Commitments

Capital expenditure commitments

At 31 December 2007, the group was committed to invest in the additional anticipated funding required to build several real estate projects in Dubai – UAE and South Africa. The estimated funding commitments on these projects are as follows:

	2007 KD	2006 KD
Capital expenditure for purchase of properties contracted for	128,900,000	9,500,000
Estimated and contracted capital expenditure for construction of properties	104,700,000	235,000,000
	233,600,000	244,500,000

The group expects to finance the future expenditure commitments from the following sources:

- sale of investment properties;
- advances from customers;
- raising additional share capital;
- advances provided by the shareholder, related entities, joint ventures; and
- borrowings, if required.

Expected financing rates from the above sources are dependent on the source of financing and management estimates of the best financing available at the time they become due.

In addition to the above commitments, the group has capital commitment relating to the purchase of two new aircrafts with a value of KD13,000,000 which will be due upon the delivery of the said aircrafts in 2009.

In December 2007, the group issued a bank guarantee for the total amount of US Dollars 275,000,000 (equivalent to KD75 millions) relating to the construction of a hotel in New York, USA.

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

39. Segmental information

For management purposes the group is organised into four major business segments:

- Assets Management: Managing of GCC, MENA and international managed funds, discretionary and non-discretionary portfolio management and custody services.
- Principal investments: Comprises of investing of company funds in private equity and quoted securities, lending to corporate and individual customers and managing the company's liquidity requirements.
- Real estate: sale and purchase of real estate, real estate brokerage and advisory.
- Others : all items that do not fall in any of the above three categories.

Commission income	168,103	-
Fees/services to asset management and development projects	751,761	-
Profit from sale of available for sale investments	-	4,465,422
Interest expenses	475,846	492,134
Key management compensation of the group		
Short-term employee benefits	592,000	475,500

Related party balances outstanding at year end due to funds transfer are included under due from related parties and due to related parties.

41. Risk management objectives and policies

The group's risk management is carried out by the central risk management function and focuses on actively securing the group's short to medium term cash flows by minimizing the potential adverse effects on the group's financial performance through internal risk reports which analyse exposures by degree and magnitude of risks. Long term financial investments are managed to generate lasting returns.

The board of directors of the parent company is ultimately responsible for setting out risk strategies and objectives and policies for their management. The group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The most significant financial risks to which the group is exposed to are described below.

41.1 Market risk

The group's activities expose it to variety of financial risks: market risk (including currency risk, interest rate risk, price risk), credit risk and liquidity risk.

a) Foreign currency risk management

The group mainly operates in the GCC, South Africa and other Middle Eastern countries and is exposed to foreign currency risk arising from various foreign currency exposures, primarily with respect to US Dollar, UAE Dirhams and South African Rand. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

41. Risk management objectives and policies (continued)

41.1 Market risk (continued)

a) Foreign currency risk management (continued)

To mitigate the group's exposure to foreign currency risk, non-Kuwaiti Dinar cash flows are monitored and forward exchanged contracts are entered into in accordance with the group's risk management policies. Generally, the group's risk management procedures distinguish short-term foreign currency cash flows (due within twelve months) from longer-term cash flows. Where the amounts to be paid and received in specific currency are expected to largely offset one another, no further hedging activity is undertaken. Forward foreign contracts are mainly entered into for significant long-term foreign currency exposures that are not expected to be offset by other currency transactions.

The group had the following significant exposures denominated in foreign currencies, translated in to Kuwaiti Dinar at the closing rate:

	2007	2006
	KD'000	KD'000
UAE Dirhams	4,191	2,846
Euro	(32,240)	(60)
Sterling Pound	432	458
US Dollar	(49,617)	(49,890)

If the Kuwaiti Dinar had strengthened/ weakened against the foreign currencies assuming the sensitivity given in the table below, then this would have the following impact on the profit for the year and equity:

	2007			2006		
	Inc/(Dec) %	Profit for the year KD'000	Equity KD'000	Inc/(Dec) %	Profit for the year KD'000	Equity KD'000
UAE Dirhams	+ 5.61	235	-	+ 0.46	13	-
	- 5.61	(235)	-	- 0.46	(13)	-
Euro	+ 5.40	(1,741)	-	+10.59	(6)	-
	- 5.40	1,741	-	-10.59	6	-
Sterling Pound	+ 3.56	15	-	+12.59	58	-
	- 3.56	(15)	-	-12.59	(58)	-
US Dollar	+ 5.60	(2,779)	-	+0.49	(244)	-
	- 5.60	2,779	-	- 0.49	244	-

The above percentages have been determined based on the average exchange rates in the previous twelve months.

Exposures to foreign exchange rates vary during the year depending on the volume and nature of the transactions. Nonetheless, the analysis above is considered to be representative of the group's exposure to foreign currency risk.

41. Risk management objectives and policies (continued)

41.1 Market risk (continued)

b) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future profitability or the fair values of financial instruments. The Board has established levels of interest rate risk by setting limits on the interest rate gaps for stipulated periods.

Positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

The effective interest rate (effective yield) of a monetary financial instrument is the rate that, when used in a present value calculation, results in the carrying amount of the instrument. The rate is a historical rate for a fixed rate instrument carried at amortised cost and a current rate for a floating rate instrument or an instrument carried at fair value.

The group's interest rate exposure based on earlier of contractual repricing arrangements and maturity at 31 December 2007 was as follows:

	Up to 1 month	3-12 months	Over 1 year	Non-interest bearing items	Total	Effective interest rate
	KD 000	KD 000	KD 000	KD 000	KD 000	(%)

Interest rate sensitivity analysis

The following table illustrates the sensitivity of the profit for the year to a reasonably possible change in interest rates of + 1% and – 1% (2006: + 1% and –1%) with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market condition. The calculation are based on the group's financial instruments held at each balance sheet date. All other variables are held constant.

	2007		2006	
	+ 1 % KD'000	-1 % KD'000	+ 1 % KD'000	-1 % KD'000
Profit for the year	(343)	343	(304)	304

41. Risk management objectives and policies (continued)

41.1 Market risk (continued)

c) Price risk

The group is exposed to equity price risk with respect to its equity investments. Equity investments are classified either as investments carried at fair value through statement of income (including trading securities) and available for sale securities.

To manage its price risk arising from investments in equity securities, the group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the group.

The equity price risk sensitivity is determined on the following assumptions:

	2007	2006
Kuwait market	9%	4%
London market	2%	22%
USA market	9%	29%
China market	11%	71%
Portugal market	37%	40%

The above percentages have been determined based on basis of average market movements in a 90 days holding period. The sensitivity analyses below have been determined based on the exposure to equity price risks at the reporting date. The analysis reflects the impact of positive changes to equity prices in accordance with the above –mentioned equity price sensitivity assumptions.

	Profit for the year		Equity	
	2007	2006	2007	2006
	KD'000	KD'000	KD'000	KD'000
Investments held for trading	12,504	4,744	-	-
Investments available for sale	-	-	10,242	5,172
Total	12,504	4,744	10,242	5,172

41.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The group credit policy and exposure to credit risk is monitored on an ongoing basis. The group seeks to avoid undue concentrations of risks with individuals or groups of customers in specific locations or business through diversification of its activities. It also obtains security when appropriate.

The loans receivables consists mainly of margins, ongoing credit valuation is performed on financial conditions of these receivables where appropriate coverage of collaterals is monitored.

The credit risk on liquid funds is limited because the counterparties are the banks with high credit-rating assigned by international credit rating agencies.

The group's exposure to credit risk is limited to the carrying amounts of financial assets recognised at the balance sheet date, as summarized below:

	2007	2006
	KD 000	KD 000
Cash and cash equivalents	73,717	30,478
Loans receivable	10,702	24,765
Other assets	40,134	29,650
Due from related parties	23,792	13,925
	148,345	98,818

Information on other significant concentrations of credit risk is set out in note 41.3.

41. Risk management objectives and policies (continued)

41.4 Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial assets and liabilities.

	Up to 1 month KD 000	1-3 months KD 000	3-12 months KD 000	Over 1 year KD 000	Total KD 000

42. Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from 2006.

The capital structure of the Group consists of debt, which includes the borrowings disclosed in note 31, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in notes 16 and 33 respectively.

42.1 Gearing ratio

The Group's risk management reviews the capital structure on a semi-annual basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital. The Group has a target gearing ratio of 20%-35% determined as the proportion of net debt to equity.

	2007 KD	2006 KD
Debt (a)	135,585,499	95,715,796
Cash and cash equivalents	(73,716,606)	(30,478,013)
Net debt	61,868,893	65,237,783
Equity (b)	288,955,677	212,123,917
Net debt to equity ratio	21%	31%

(a) Debt is defined as long and short term borrowings .

(b) Equity includes all capital and reserves of the group.

42.2 Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 3 to the consolidated financial statements.

42.3 Categories of financial instruments

The carrying amounts of the group's financial assets and liabilities as stated in the consolidated balance sheet may also be categorised as follows:

	2007 KD'000 Fair value	2007 KD'000 Carrying value	2006 KD'000 Fair value	2006 KD'000 Carrying value
Financial assets				
Cash and cash equivalents	-	73,717	-	30,478
Investments at fair value through statement of income	143,964	-	116,191	-
Loans receivable	-	10,702	-	24,765
Investments available for sale	45,296	54,995	18,544	42,563
Other assets at amortised cost	-	40,134	-	29,650
Due from related parties	-	23,791	-	13,925
	189,260	203,339	134,735	141,881
Financial liabilities at amortised cost				
Borrowings	-	135,585	-	95,716
Other liabilities	-	66,822	-	43,325
Due to related parties	-	2,533	-	2,537
Advances received from customers	-	94,051	-	65,753
Term loan from a related party	-	-	-	2,834
	-	298,991	-	210,165

International Financial Advisors – KSC (Closed) and Subsidiaries - Kuwait

43. Fair value of financial Instruments

The fair values of financial assets and financial liabilities are determined as follows:

- the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets is determined with reference to quoted market prices;
- the fair value of other financial assets and financial liabilities (excluding derivative instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments; and
- the fair value of derivative instruments is calculated using quoted prices. Where such prices are not available, use is made of discounted cash flow analysis using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives.

44. Comparative amounts

Certain prior year amounts have been reclassified to conform to the current year presentation. These reclassification were made in order to more appropriately present the items of balance sheet and statement of income as a result of adoption of IFRS 7. Such reclassifications do not affect previously reported total assets, total equity, total liabilities and profit reported in the prior year.
